Publications for which Dr. Novack was the medical writer

(In reverse chronological order)

- Lewis RA, Gross RL, Sall KN, Schifman RM, Liu CC, Batioosingh AL, for the Ganfort® Investigators Group II. The safety and efficacy of Bimatoprost/Timolol fixed combination: A one-year double-masked, randomized parallel comparison to its individual components in patients with glaucoma or ocular hypertension. J Glaucoma 2010;19:424-6..
- Hommer A for the Ganfort® Investigators Group I: A double masked, randomized, parallel comparison of a fixed combination of bimatoprost 0.03%/timolol 0.5% with non-fixed combination use in patients with glaucoma or ocular hypertension. Eur J Ophthalmol 2007;17(1): 53-62.

• Keates EU, Friedland BR, Stewart RH, Mandell AI for the American Carteolol Study Group. Carteolol hydrochloride: Controlled evaluations of its ocular hypotensive efficacy relative to its vehicle, and, in combination with pilocarpine, relative to timolol. J. Glaucoma 1994;3:315-322.

• Beehler CC, Stewart WC, MacDonald DK, et al. A comparison of the ocular hypotensive efficacy of twice-daily 0.25% levobunolol to 0.5% timolol in patients previously treated with 0.5% timolol. J Glaucoma 1992;1:237-242.
  o This paper was #24 of the top 100 most frequently cited articles in ophthalmology journals (Ohba et al, Arch Ophthalmol 2007;125:952-60).
- Stryz JR, Merte H-J. Drucksenkender effekt und nebenwirkungen von levobunolol-augentropfen 0,5% und 1,0%, verglichen mit timolol-augentropfen 0,5% bei patienten mit weitwinkelglaukomen. Klin Mbl Augenheilk 1985;187:537-44.
